As a leading provider of engineering staffing and outsourcing solutions, Kelly Services awards two scholarships annually to encourage student interest in engineering and to build awareness of engineering as a career path with unlimited potential.

“Exceling within a competitive college engineering program requires diligence and commitment, traits that will go on to serve as building blocks to a successful career in engineering,” said Joe Lampinen, senior director, engineering global practice consultant at Kelly Services. “As a global provider of workforce solutions to the engineering industry, Kelly is dedicated to promoting achievement for engineering students. Ranking in the top one percent of her engineering class, Alana is a deserving winner and is certain to have a very bright future.”

“After receiving my engineering degree I want to work on developing biomechanical systems, particularly adaptive technologies to create solutions for individuals with various physical disabilities,” said Alana Andrews. “I am very grateful to receive this support from Kelly Services and I look forward to continuing my education.”

To be considered, applicants must be full-time students pursuing a degree at an accredited institution of higher education in the United States or Canada and be accepted into the School of Engineering. Students must have a minimum of a 3.0 cumulative grade point average (GPA) on a 4.0 scale.

In addition to having an outstanding academic performance, candidates are required to write an essay that is judged based on depth of knowledge and awareness of the issue and/or challenge addressed, as well as creativity, composition and originality.

EDITOR’S NOTE: Alana Andrews is originally from Seattle, and currently resides in Spokane, Wash., where she attends Gonzaga University.
