

KellyOCG® Honors Top Suppliers with Supplier Excellence Award

National and Global Companies Recognized for Distinguished Workforce Solutions

TROY, Mich. (April 12, 2018) – KellyOCG®, the outsourcing and consulting group of [Kelly Services®](#), has announced the recipients of its sixth annual Supplier Excellence Awards. Presented earlier this week at a ceremony in Michigan, the awards are given to top-performing national and global suppliers that provide superior workforce solutions. This year, 31 companies were recognized with more than half of them representing diverse suppliers.

“The awards demonstrate our commitment to building a strong supplier community that enables us to meet our customers’ needs by delivering industry-leading workforce solutions,” said Thorsten Koletschka, supplier strategy and engagement lead, Global Talent Supply Chain Organization for KellyOCG. “Not only do the awards recognize their dedication, but they provide valuable opportunities for us to support our suppliers with their business growth, product development and performance. Together, this partnership allows us to enrich people’s lives by connecting them with the world of work every day.”

In order to receive this recognition, suppliers are evaluated on three criteria:

- scorecard results of their performance within KellyOCG-managed programs;
- compliance with legal and program-specific requirements; and
- engagement survey results from our stakeholders assessing the ease of doing business with the supplier and the supplier’s partnership approach.

Winners receive one-on-one development sessions; a designated KellyOCG representative to support their business growth; participation in supplier focus groups; access to KellyOCG’s supplier insight; and the ability to work directly with KellyOCG’s senior leaders.

KellyOCG prides itself on the diversity of its global supply chain, which includes active partnerships with more than 2,700 suppliers located in 140 countries throughout the world.
